

# HALLOWEEN SAFETY

Here's what our Super Safe Friends do for Halloween:

The children and I wear costumes that don't block our view and use non-toxic face paint instead.

My brother and I avoid costumes that may cause us to trip.

My brother and I tell our parents where we're going and always walk in a group.

I make myself visible to others by wearing bright colors at night. I also ask an adult to check if my costume is flame retardant.

I carry a working flashlight and never shine it into the eyes of oncoming drivers or pedestrians.

1

Plan and discuss with an adult the route you will follow and only travel in familiar areas.

Sofia, Let's go over the Trick-or-Treating safety rules.

2

Have an adult set the time that you need to return home.

3

Remember, children under the age of 12 should be supervised by an adult or responsible youth.

4

Stay on the sidewalk and walk on the left side of the road facing traffic. Always make eye contact with drivers when crossing at the crosswalk.

5

Look in all directions when crossing, including left, right, back and ahead of you.

6

Only stop at well-lit houses and never enter a stranger's home or garage.

7

Inspect your candy. Make sure it's wrapped and throw away anything that looks suspicious.
